Data Ethics for Business Professionals (DEBIZ)

CertNexus Authorized Training · Applied Technology Academy

The power of extracting value from data utilizing Artificial Intelligence, Data Science and Machine Learning exposes the learning differences between humans and machines. Humans can apply ethical principles throughout the decision-making process to avoid discrimination, societal harm, and marginalization to maintain and even enhance acceptable norms. Machines make decisions autonomously. So how do we apply ethical principles to data driven technology? This course provides business professionals and consumers of technology core concepts of ethical principles, how they can be applied to emerging data driven technologies and the impact to an organization which ignores ethical use of technology.

LEVEL	DURATION	EXPERIENCE	AVERAGE SALARY	LABS
Beginner	**1 Day**	**0 years: Basic Computing**	**Not Applicable**	**No**

Course Outline

- **Lesson 1: Introduction to Data Ethics**
  - Define Ethics
  - Define Data
  - Define Data Ethics
  - Principles of Data Ethic s
  - The Case for Data Ethics
  - Identifying Ethical Issues
- **Lesson 2: Ethical Principles**

- **Lesson 3: Sources of Ethical Risk**
  - Bias and Discrimination
  - Case Study: Allegheny Family Screening Tool
  - Data Surveillance
  - Safety and Security
  - Case Study: PredPol
- **Lesson 4: Business Considerations**
  - Data Legislation
  - Manage the Effects of Data
  - Case Study
  - Embed Organizational Values in the Data Value Chain
  - Building a Data Ethics Culture/Code of Ethics
  - Stakeholder Checklist

Intended Audience

This course is designed for business leaders and decision makers, including C-level executives, project and product managers, HR leaders, Marketing and Sales leaders, and technical sales consultants, who have a vested interest in the representation of ethical values in technology solutions. Other individuals who want to know more about data ethics are also candidates for this course. This course is also designed to assist learners in preparing for the CertNexus® DEBIZ™ (Exam DEB-110) credential.

Prerequisites

To ensure your success in this course, you should have a working knowledge of general business concepts and practices. You should also have a basic understanding of Artificial Intelligence and or Data Science. You can obtain this level of skills and knowledge by taking the following CertNexus courses:

- AIBIZ™ Artificial Intelligence for Business Professionals
- DSBIZ™ Data Science for Business Professionals

Follow-On Courses

- Artificial Intelligence for Business Professionals (AIBIZ)
- Generative AI for Business Professionals (GenAIBIZ)
- Data Science for Business Professionals (DSBIZ)

Course Objectives

Data Ethics for Business Professionals (DEBIZ) is designed so business professionals can identify, explain, and document how their organization identifies ethical principles and sources of risk, and creates sustainable ethical decision-making processes.

Industry and governments are enacting more regulation to ensure trustworthy tech. DEBIZ can help you define how to develop processes to stay abreast of these dynamic requirements.

Verify that your data stakeholders have the requisite knowledge to design and deliver ethically aligned projects.

Ready to enroll? Call 800.674.3550 or email Info@AppliedTechAc.com — private team cohorts, GSA MAS purchasing, military credentialing funding, VA GI Bill and VR&E and student financing available.
