OffSec Learn Enterprise Training

OffSec Authorized Training · Applied Technology Academy

Utilize OffSec Learn Enterprise to reskill and upskill your team. Applied Technology Academy is able to offer the best pricing on OffSec LE.

Cybersecurity training built for the Enterprise

Unlimited upskilling: Unlimited access to a comprehensive cybersecurity content library for team exploration and specialization.

Adapting to threats: Regularly updated content to address emerging cybersecurity threats, including rapid inclusion of new threats.

- Scalable learning: A flexible platform that caters to various skill levels and specializations within your organization.
- Risk mitigation: Boost your team's cybersecurity capabilities to safeguard against threats and reduce organizational risks.

Continuous cybersecurity skill development with Learn Enterprise

- Exclusive library access: Unrestricted access to OffSec's vast library for a depth of cybersecurity knowledge.
- Ongoing skill updates: Monthly updates to keep your team's cybersecurity knowledge current.
- Flexible hands-on training: Year-long lab access to balance learning with professional duties.

Enterprise Cyber Range: Realistic, in-depth labs that simulate enterprise environments, enhancing skills with offensive vs. defensive tournaments.

Enterprise Cyber Range: a platform for practical skill enhancement

- Explore threats safely
- Understand and navigate real-world attack vectors in a secure, controlled environment, staying abreast of evolving cyber threats.
- Enhance baseline capabilities and responses

Utilize virtual labs for safe cybersecurity "fire drills", improving team response and communication during actual cyber incidents.

Strategize learning development

Use leaderboards and side-by-side competitions to identify skill gaps and strengths to inform and enhance your organization's ongoing cybersecurity learning initiatives.

- Set up tournaments

- Foster better skill development by building tournaments where offensive and defensive teams engage in real-world simulations.

MITRE ATT&CK framework training

Aligned with the MITRE ATT&CK framework, OffSec training, and content cover nearly 70% of the skills required to match the attack framework. Training for 12 tactics including:

Reconnaissance | Resource Development | Initial Access | Execution | Persistence | Privilege Escalation | Defense Evasion | Credential Access | Discovery | Lateral Movement | Collection | Command & Control

Cybersecurity training across your teams

- Penetration testing
- Secure software development
- Incident response
- Security operations
- Exploit development
- Blue teaming
- Red teaming
- And many more...

Learning Paths by topic

- MITRE ATT&CK
- IOT
- OWASP Top 10 2021
- Cloud Environments
- And many more...

Our robust Learning Library includes:

OffSec Learning Library - unmatched depth and breadth

The OLL helps learners build indispensable skills by offering a comprehensive variety of role-specific content, from entry-level to advanced.

- 6,800 Hours of written content
- 1,800 Videos
- 4,200 Labs
- 130 Skills
- 440 Modules
- 10 Job roles
